

Earnnest Integration Datasheet

Convenient. Secure. Transparent.

Earnnest is a secure, convenient digital payment platform that allows for a fully digital transfer of funds in real estate transactions.

Earnnest has created a powerful integration with CoreLogic, allowing your members to request earnest money digitally - directly within their Matrix platform. Earnnest is at the forefront of payment innovation, offering secure and efficient digital earnest money payments, streamlining transactions for real estate professionals like never before.

Convenient

Your members save time & effort by collecting all their real estate payments digitally.

Flexible

Earnnest works in their CoreLogic platforms & can be accessed by mobile app or desktop.

Transparent

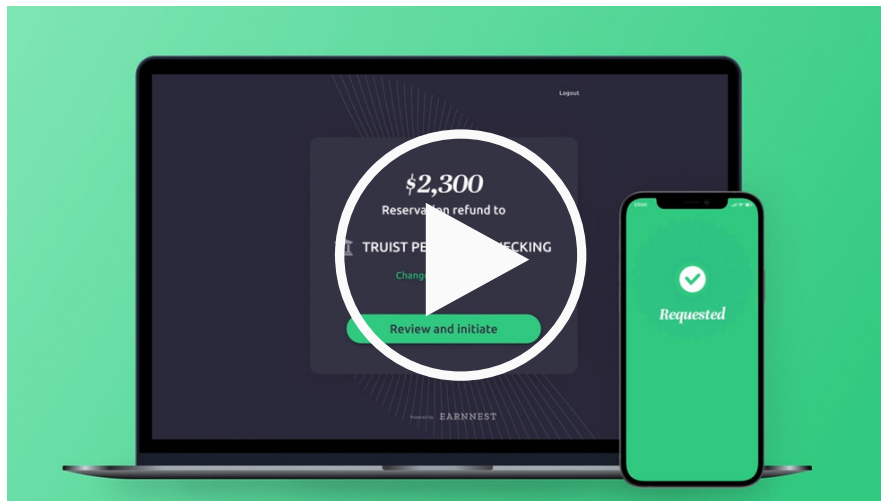

Confirmation, tracking IDs, & receipts provided to everyone involved.

Secure

Earnnest is the sole digital earnest money payment provider offering comprehensive escrow account protection against pullbacks and chargebacks.

Enable your members to digitize their clients' real estate payments

Earnnest ensures escrow deposits are handled with the highest level of security, providing peace of mind for both your members & their clients. No more lost time coordinating checks, no more clients at risk of wire fraud, Earnnest makes earnest deposits safe and easy.

Connect with your CoreLogic account rep today to find out how your members can start using Earnnest.
