LiveBy Hyperlocal Data

Leverage the Best Hyperlocal Platform in the Industry

Equip your members with the tools to educate and empower their customers with dynamic local information to help them make more informed decisions on the community.

LiveBy technology gives real estate professionals a new way to connect with homebuyers through local content. Provide clients with deeper insights into neighborhoods and streamline the discovery process.

Hyper-Local Data That Empowers Your Members To...

- Obtain access to neighborhood market reports each month; allowing them to provide their clients critical & timely trends through a hyperlocal lens.
- Share custom, digital links with lead capture opportunity. Digital links are unique to each member & insights will update automatically.
- Give clients & prospects the most up-to-date area information with your brand at the forefront.

- Instantly create area guides to help illustrate to clients what it would be like to live in a particular neighborhood or community.
- Explore & discover valuable insights on any subdivision, neighborhood, city, or county in their local market(s).
- Download and print market reports and guides for showing packets or open houses.

Reach out to your Cotality account rep today to learn how you can enable your members provide essential local information to their clients & close more deals.
